About BudgIT

BudgIT is a civic organisation driven to make the Nigerian budget and public data more understandable and accessible across every literacy span. BudgIT's innovation within the public circle comes with a creative use of government data by either presenting these in simple tweets, interactive formats or infographic displays. Our primary goal is to use creative technology to intersect civic engagement and institutional reform.

N300m

CONSTRUCTION OF GYM AT FEDERAL MINISTRY OF EDUCATION HEADQUARTERS

The proposed N300m for the construction and furnishing of a recreational gym at the Federal Ministry of Education's Headquarters is a misplaced priority given the lamentable state of public education infrastructure, the number of out-of-school children and the country's outdated university curriculum in key courses.

RECOMMENDATION

The National Assembly should eliminate this line item because staff can explore paid subscriptions in private gyms. This sum should be vired to the procurement of classroom furniture and learning equipment in Federal Unity Colleges as N200m proposed budgeted for this activity is grossly inadequate.

N150m

NATIONAL AIRLINE CARRIER CONSULTANCY

The N150m being proposed to pay consultants for the creation of Nigeria's National Carrier (which was launched since July 2018 at the Farnborough International Public Air show in London) is a suspicious waste of public funds. N186m and N190m were allocated in the 2019 and 2021 approved budgets for the same line item.

RECOMMENDATION

The National Assembly should expunge this item and such funds should be used to provide additional screening point at the MMIA terminal and improve baggage scanning equipment (that leads to delays in loading passengers' luggage).

N400m

WORKING CAPITAL FOR THE ESTABLISHMENT OF NATIONAL CARRIER

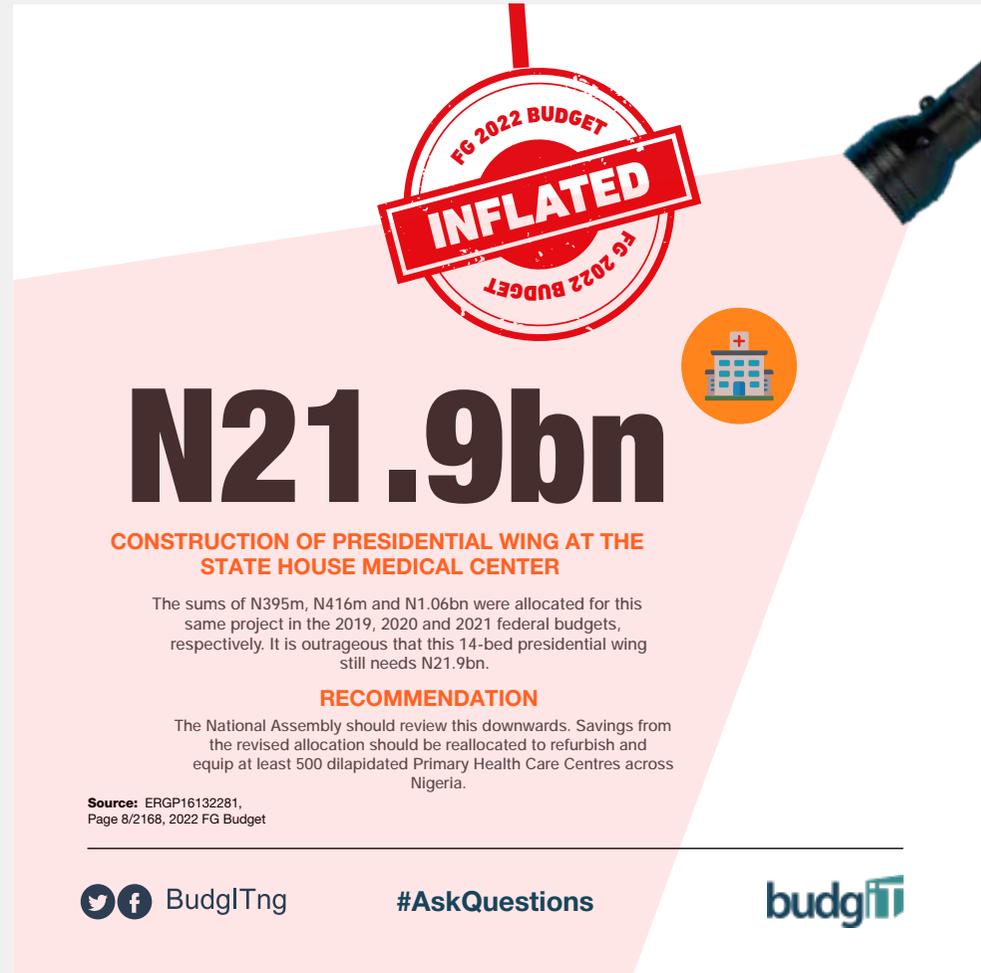

Provision of "Working Capital" for a non-operational National Carrier (which was launched in July 2018 at the Farnborough International Public Air show in London) is a suspicious waste of public funds. N2.29bn and N500m were allocated in 2020 and 2021 as "working capital" for this National Carrier. The federal government should let the private sector lead in this sector while FG creates an optimal regulatory environment.

RECOMMENDATION

The National Assembly should expunge this item and such funds should be used to provide additional screening point at the MMIA terminal and improve baggage scanning equipment (that leads to delays in loading passengers' luggage).

N21.9bn

CONSTRUCTION OF PRESIDENTIAL WING AT THE STATE HOUSE MEDICAL CENTER

The sums of N395m, N416m and N1.06bn were allocated for this same project in the 2019, 2020 and 2021 federal budgets, respectively. It is outrageous that this 14-bed presidential wing still needs N21.9bn.

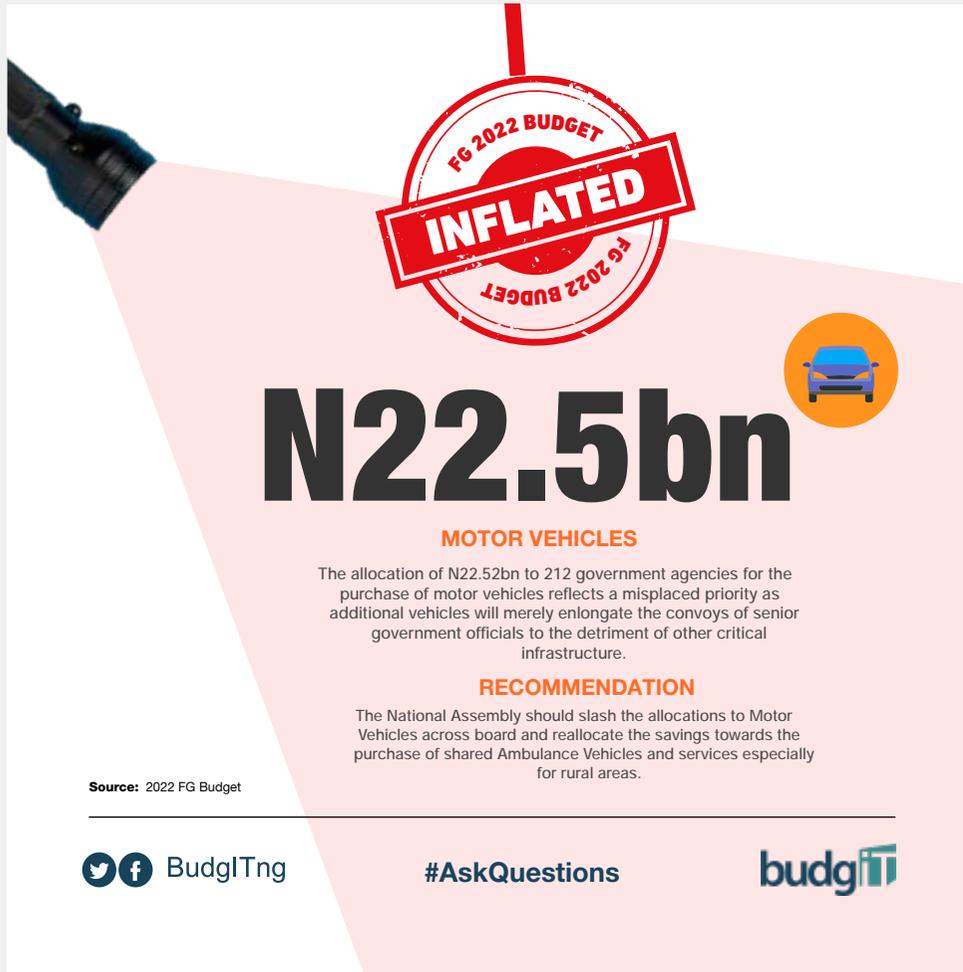

RECOMMENDATION

The National Assembly should review this downwards. Savings from the revised allocation should be reallocated to refurbish and equip at least 500 dilapidated Primary Health Care Centres across Nigeria.

MOTOR VEHICLES

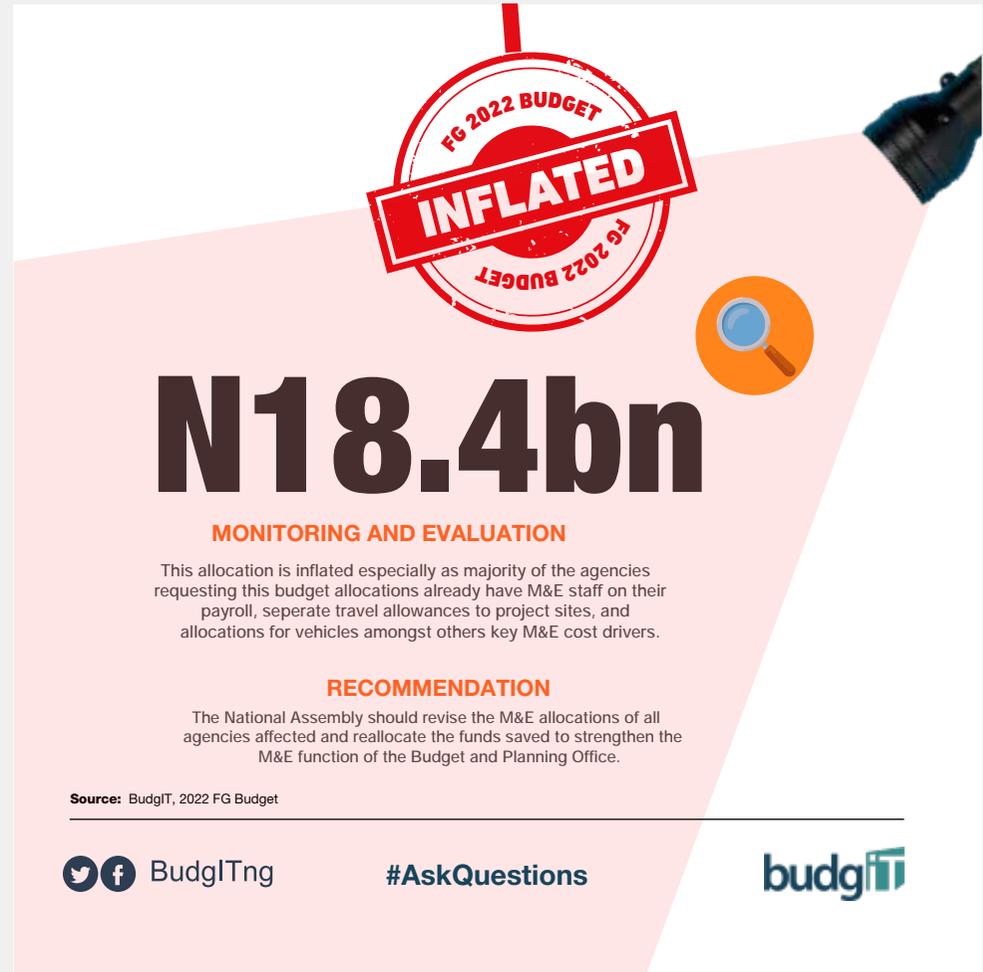

The allocation of N22.52bn to 212 government agencies for the purchase of motor vehicles reflects a misplaced priority as additional vehicles will merely enlongate the convoys of senior government officials to the detriment of other critical infrastructure.

RECOMMENDATION

The National Assembly should slash the allocations to Motor Vehicles across board and reallocate the savings towards the purchase of shared Ambulance Vehicles and services especially for rural areas.

MONITORING AND EVALUATION

This allocation is inflated especially as majority of the agencies requesting this budget allocations already have M&E staff on their payroll, separate travel allowances to project sites, and allocations for vehicles amongst others key M&E cost drivers.

RECOMMENDATION

The National Assembly should revise the M&E allocations of all agencies affected and reallocate the funds saved to strengthen the M&E function of the Budget and Planning Office.

REFRESHMENT & MEALS

The allocated sum of N3.78bn for only "Refreshments & Meals" for guests and government officials at 538 federal agencies is a bit inflated especially as there is an additional N176bn allocated for "Meals for Government Schools/Institutions"

RECOMMENDATION

We recommend that the National Assembly significantly cuts the proposed allocation for meals and refreshment and redirect the funds to priority areas in the budgets of the respective MDAs

N30bn has been allocated under "Service Wide Votes" in the Ministry of Budget, Finance and National Planning. This line item has no disaggregation nor clear breakdown.

N11.2bn

INTERNATIONAL TRAVEL & TRANSPORT: TRAINING

Despite the warning from the Budget Office of the Federation for MDAs to utilize local trainings as much as possible, N11.24bn is being proposed for logistics and cost of International Trainings. A total of 58 Agencies have a budget for International Training summing up to N3.94bn, while 195 Agencies have budgets for travels for international training summing up to N7.3bn

RECOMMENDATION

Conferences and workshops can be now attended virtually, as such the National Assembly should slash this the overall international travel budget by at least 50%. Funds saved can be vired to other priority areas like the provision and rehabilitation of primary health care centers

N1bn

PROVISION OF ROAD SIGNAGES AND OTHER ROAD FURNITURE ON FEDERAL HIGHWAYS

N453.79m, N183.44m, N500m was allocated to this line item in 2019, 2020, and 2021 respectively. The proposed 2022 sum is twice the 2021 approved budget and 5.5 times the 2020 approved budget for the provision of road signages and other road furniture on federal highways.

RECOMMENDATION

The MDA should justify the sharp increase in the cost of the proposed activity. If such MDA cannot justify the increase, excess funds should be to reallocated to Health/Education
